

We Appreciate Your Referrals

Thank you for giving us the opportunity to help you and your family with your legal needs. The highest compliment we get is when past or present clients refer one of their friends or family. We know there are many lawyers in the area from which to choose, and we value the confidence you placed in our firm.

Should anyone in your family or circle of friends ever need the services of a personal injury attorney, our firm would be happy to provide a free consultation immediately after the accident. We would also vigorously represent the injured persons and make sure they are justly compensated for their injuries. That's our job.

Our Clients are the Winners

\$1,200,000.00 CONFIDENTIAL WRONGFUL DEATH SETTLEMENT

As a result of injuries sustained in a car crash, a mother died. We obtained justice for her three adult children.

\$925,000.00 BAD FAITH SETTLEMENT – 37X POLICY LIMITS

A young woman sustained both physical and cognitive injuries as a result of being T-boned by another vehicle. Liability for the crash was disputed by the other driver who said that our client violated her right of way at an intersection governed by a traffic light, which made this case more difficult. Ordinarily, the driver's insurance company would have been responsible for only the \$25,000.00 policy limits. We argued that the insurance company failed to act in the best interests of the insured and requested it tender the policy limits promptly. The insurance company breached its contract by failing to do so. As a result, we secured justice for our client and her family that allows them to get the therapy to improve her quality of life.

\$462,500.00 SETTLEMENT FOR ROLLOVER VICTIM

Our client was involved in a crash on a major highway where she was cut off by another vehicle causing her car to roll multiple times before coming to rest. As a result, she sustained a significant injury to her neck, and future surgery was recommended. We obtained an excellent settlement for her and her husband.
